## Synopsis

Follow My Proven 10-Step Method And Write Your Own Book In Less Than 24 Hours! From: Stefan Pylarinos (author, six-figure marketer and coach) Subject: Your very own e-book in less than 24 hours. Dear future successful e-book author, The internet is a goldmine ready to be exploited. You, I and any person know that. The truth is, the fastest way to start generating money online is by writing and publishing your very own e-books. Luckily for you, I will show you how you can do this in less than 24 hours. I know, sounds too good to be true, but I promise that by the time you finish reading this brief message, you will know exactly HOW. Why Should You Listen To Me? I won't beat around the bush and market myself like most do, mainly because this is about YOU and how you can finally start writing your own best-selling books. Over the last few years I've published dozens of books in many niches. I've also written best-selling Kindle books that have generated me thousands of dollars on complete autopilot and have been wildly acclaimed (the book is still generating me sales, even when I'm comfortably sleeping in my bed at night). To view the books I've personally written, just take a look at my Author Profile here on for proof. Now, trust me when I say that I can truly show you how I'm able to write best-selling books in less than 24 hours. And the funny thing is that I'm not even a good writer! Here's What You Will Learn...  
• How to Write a Book in Less than 24 Hours • is a comprehensive training program where I show you step-by-step how you can write a book in less than 24 hours, even if you're not a good writer. This is what it's all about | 11 chapters explaining to you in an entertaining way the entire process of writing a book in less than 24 hours. My effective 10-step method that works like a charm and is used constantly by me. It will work for basically ANYONE as I created a dead-simple method to become an effective writer in record time. The books that you will be able to write can be easily published in Kindle, Nook, Kobo, Smashwords or even in your own website! You can also publish your books as a paperback or hardcopy book just as easily! If you're lost about what topic you should write about, don't worry - I will show you exactly how you can come up with hot topics (I will also even show you how to conduct the proper research). How to come up with and write killer titles that will create excitement in people who are checking out your book. If you're not rushed to write the book, you can also do it in a weekend or even in a week if you want. And much more! ## Customer Reviews

The pros and cons.Pro: it's good marketing for his costlier products. A good example for aspiring writers. The book is clearly set out. The philosophy part is in author voice and feels real.Con: the book delivers on its promise only by redefining what it means to "write a book". The bar is far, far, far lower than normal books. But he delivers. The instructional part feels fake, recorded, or otherwise not real, like its not so important compared to the end marketing and start philosophy.Obviously not much work, if any, went into this book. But I believe the merit is in the marketing and the philosophical redefinition of "book" in the light of marketing on kindle. It's a sign of the times that a callow and unformed talk can be sold as a book.

This book amounts to an advertisement for the author's writing course with the readers paying for the ad. Like many 'how-to-write' Kindle books lately this one has errors in basic grammar and spelling. No how-to-write author who respects his/her audience would ever allow something like this to be published.The book emphasizes speed in writing over quality and accuracy. These are all deal killers for anyone serous about writing quality books. But then, the book's subtitle does mention 'fast' and nothing about good, great, accurate.If it had been properly proofread readers would never see spelling errors like 'proof read' and 'proof reading' (the correct spellings are 'proofread' and

'proofreading'). Simple errors such as these remove any credibility the author wishes to have in the how-to-write genre. I'm glad I got it on a day it was free. I cannot recommend it at any price point over \$0.00.

I can tell this book was written in LESS than 24 hours, BUT that IS the point isn't it? Still a better quality book than what I could personally write in 24 hours, but I can definitely tell. Get's the mass of the message out quickly, though, and that's what I bought it for. But, after I finished reading, I felt like it was too quick, too little, and left me wanting more!

A quick but useful read. The instructions are clear and reasonable, though helpful mostly for a limited subset of book-writing, namely brief, non-fiction offerings similar to this book itself. It's part of the marketing for the author's courses in quick book-writing (natch) and Kindle publishing, but despite that it does offer useful (if somewhat broad) advice. If writing instructional and/or motivational ebooks is something you want to do (either for yourself or for others), it's worth a read - particularly if you have Kindle Unlimited or it's on a freebie promotion.

Common sense keep your head down and write ... what? but what bothered me more was how he keeps pushing his courses. He even says he is more concerned about the marketing than the author aspect of it all.

How to Write a Book in Less than 24 Hours is a comprehensive road map to a complete Kindle book finished in 24 hours or less. I suggest that anyone who wants to launch an online or offline service such as freelance writing, building sites or even a motivational speaker use this method to introduce your business to potential clients. You have nothing to lose (not even time) and a way to gain credibility. The author explains each step thoroughly so that non-writers can put their thoughts in book form and have it edited. It's so easy to add a link to your Kindle book to your other marketing methods. Just give it away!

While I didn't finish my first book in less than 24 hours - This eBook offers some helpful tools in how to write and publish your book. I broke quite a few of the rules laid out in this "how to book" in my first attempt and paid the price with a stall out. When insights are followed, this is a powerful tool to have in your arsenal. There is a lot of focus on publishing an ebook on Kindle and other ebook publisher. Be prepared for a sales pitch as well, but the tools are worth the pitch.

This book was short, precise and full of practical information. Exactly what I was looking for to get myself into gear and actually do what I have been thinking about doing. While I did not write a book in exactly 24 hours, it has cut my time in creating a non-fiction book way down, and thanks for Stephan, I will be publishing my first e-book by the end of next week.
