## Synopsis

The plaintiffs in a sensational breach of promise suit are wealthy social climbers Barton and Delphine Lambert, suing on behalf of their beautiful daughter, Zillah. The defendant is Zillah's alleged fiancé, brilliant young architect Killian Melville, who adamantly declares that he will not, cannot, marry her. Not even to his counsel, distinguished barrister Sir Oliver Rathbone, will Killian explain his rejection of rich and charming Zillah. Utterly baffled, Rathbone turns for help to his old comrades in crime Monk, the private investigator who knows his city like the back of his hand, and fearless nurse Hester Latterly. But even as they scout London for clues, from Mayfair to sordid Devil's Acre, the case suddenly and tragically ends. An outcome that no one except a ruthless murderer could have foreseen."

## Customer Reviews

Most of Anne Perry's works dwell on the darker aspects of human nature, notably various sexual perversions hidden under the veneer of upper-class and middle-class Victorian society. Some of her recent works especially in the Inspector Monk series have also dwelt upon the status of Victorian women of good families, notably the tremendous barriers imposed to them professionally in medicine. More recently, her books have touched more explicitly upon political issues of the day. This is a slightly unusual Inspector Monk book, in that there is no sexual perversion hidden as the motive for a murder. I shouldn't give away too much of the plot for those who have not read this book. The story is about the fragility of reputation, the impossibly limited choices available to young

women in that society, and the ways in which friendships can be misconstrued. One of the most effective scenes for me was where Sir Oliver Rathbone (the defense lawyer) is neatly boxed in by a match-making mother, and the way in which he understands and reads the minds of the women around him. This is one of the reasons I have kept this particular book, above all the others. The story-line is at least initially not as dark as the typical Anne Perry (warning: her works are not for the squeamish), with the first half of the book being about a trial for breach of promise brought against one of the most brilliant young architects who refuses to marry a young woman. Why he refuses to marry her is not made clear until the middle of the story, and it certainly comes as a shock to all concerned. The second half of the book is much darker, in that the murder is driven by the personal greeds of one of the principal characters in the trial.
