## Customer Reviews

I was hooked in from the very first chapter of *Firedancer*. If you're looking for a way to ignite passion in your life, this book is GOLD! The powerful messages of listening to your HEART, tapping into the wisdom of NATURE, and trusting the SIGNPOSTS showing up in your life, resonated deeply for me.

I also loved that at the end of the chapters, there were questions/activities. It helped to hold me accountable for applying what I'd learned/read to my own journey. This is more than a beautiful story of Guildner's personal journey. It's a step-by-step, amazing guide on how to reach your soul-given potential. I'm a firm believer that everyone is born to do #EpicShit, and this book will help people do it! LOVED IT!

I loved this book, it spoke directly to where I am in my life right now. As I read the book my mind and heart continued to open to what the next leg of my journey should be. I am excited to download the workbook and start the homework to take my life in the direction that I have been longing for but didn't know how to get there. Thank you Kami for this gift!!

Firedancer is a book to inspire your dreams, but beyond that it helps you reach inside yourself to find those dreams. I love the exercises of self discovery and goal setting. I am in the process of resetting my goals this has been a huge help in my own spiral journey. The inspirational words that accompany my art always touch my heart and speak to my soul. Yes I meant to say my art. I am Diana Lancaster the artist. Seeing my spirit horse paintings in this special book is a dream come true.

I'm typically not a reader of self-help/improvement books, but this is the exception. Not only was this book inspiring because of Kami's personal story (which she weaves expertly throughout), but it also offers practical ways for any woman to connect to her unique life purpose, passion and vision. I'll be using the tools provided by Kami to re-calibrate my own life. Don't wait to start reading this book. As Kami says, "Be bold. Be BIG!" Now is the time to discover who you really are and the gifts you're meant to share with the world.

Firedancer scooped me up and held me in its arms through a bewildering time where my professional life was no longer inspiring or effective. Kami shares her journey in a raw, honest style which is relatable the entire way through. In her book, she offers valuable exercises which gently guide the reader back to their "essence" and a return to the rhythms and signs in nature. Firedancer is a holistic guidebook for those seeking the next level in both professional and personal evolution.
