# Act Like A Lady, Think Like A Man, Expanded Edition CD: What Men Really Think About Love, Relationships, Intimacy, And Commitment

## Synopsis

An International Bestseller With translations in more than thirty languages, *Act Like a Lady, Think Like a Man* is the definitive relationship guide for women. Steve Harvey can't count the number of impressive women he's met over the years—the many incredible women who can run a business, have three kids, maintain a household in tiptop shape, and chair a church group all at the same time. So, when it comes to relationships, why can't these same women figure out what makes men commit? According to Steve, it's because they're asking other women for advice when they should be going directly to the source. In this expanded edition, Steve includes an added section of all new advice, with tips on dealing with your partner's exes, spicing up your relationship, ensuring you're ready for that walk down the aisle, and much more. Sometimes funny, often unflinchingly direct, but always truthful, *Act Like a Lady, Think Like a Man* is a book you must listen to if you want to understand how men think when it comes to relationships, intimacy, and love.

## Customer Reviews

I wanted to read; *Act like a Lady Think like a Man* out of knowing that Steve Harvey is a wonderful comedian and so much insight comes through looking life from the lighter side. I was not disappointed. I laughed, I learned and my heart opened. He explains that men want to, are trained to and are good at the 3 "P's" when it comes to loving their women. They profess their love; meaning, they tell the world. This is my Lady, my girlfriend, my wife and until they do that know that you are not his. That's the good news...you know where you stand. Second "P": Protect: men will go

out of their way to make sure that to the best of their ability the no harm comes to you. No one will talk down to you, nor will they even look like they want to harm you. He takes his job as protector seriously...if not, he's not yours and you are not his. Third "P", a man will Provide for the woman he loves and her/their offspring. He will make sure that all he has goes towards making sure she has what she needs. Even while dating...Ladies, don't rush to pay the check. He feels like a man when he can do this for you whether or not you can do for yourself...maybe even especially if you can do it for yourself. His DNA, according to Harvey and I've seen this in my life a well, providing is his responsibility. If he doesn't feel needed or wanted in any of these 3 "P's" he is not the guy for you nor are you the woman for him. Knowing this, it's easy to move on or to bring a man closer. I love Harvey's simple and humorous clarity. I wondered if his was a throw back approach and then I realized with his help, women and men are different for a reason. Praise the difference, respect the difference, see the difference...have great relationships. Simple, clear, fun! In conjunction with "Act like a Lady...

The central premise of Steve Harvey's book is that women are not setting stringent enough standards in their romantic dealings with men. As such, he posits, they are giving away their social power and selling themselves short on their dating/mating goals. Steve is partially correct, but he misses the central point. It is true that women do tend to settle for less than they truly want when dating, but the damage they're doing to themselves is not ultimately a result of letting men get away with murder, so to speak. Rather, the problem originates from the fact that women are choosing the wrong men. Decent men don't look for any opportunity to take advantage of women. They don't take that mile when given the proverbial inch. The men who do are the players, chiselers and con artists, the kinds of men who may look good in the store window but fall totally apart when you get them home from the mall. 'Act Like a Lady' ultimately is a rehashing of the familiar 'men are incorrigible dogs' theory of gender. It's a tired story that I'd hope we had moved past, but here it is again in a new package. Yes, men like sex. Yes, men like to look around. But decent men are able to control their urges, especially when they know that not doing so will cause great pain to those around them. Steve's theory doesn't stand up to real life, where if you spend any time, you quickly realize that uniqueness is a defining human personality trait. Most women do have high standards--that is, until they run into a man who knows all the right things to say to circumvent their defenses. A woman can absolutely KNOW that she's worth all the trouble, but she'll totally drop her guard when a skilled player comes along saying all the right things.
