If you're a fan of the Abraham-Hicks works, you will love this CD set. If you're new to their work, let me give you a little background. Ester Hicks channels a group of entities called Abraham, which means these entities speak through her. Some time ago, she and her husband had become interested in meditation, and because she has a quiet mind naturally, they (the group called Abraham) were eventually able to communicate through her. At first they actually moved her head, and were writing with her nose. If you're interested in more of their history I recommend *Introducing Abraham - The Secret Behind "The Secret"*. Abraham is surprisingly funny. They focus a lot on love, attraction and manifestation. They give the example that you get a big American Express bill in the mail, and you say "I need more money." And the universe says "okay." But then you go on to say, "I don't have enough money to pay this bill. The people next door have more money than I do. They probably inherited it, those lazy bums." And as you continue to beat the drum of "I don't have..." The universe says, "Okay" to that too. So it is very important to control our thoughts, as the universe will send us what we ask for. Abraham explains how, the better it gets, the better it gets. Because when

things are going well, we expect them to continue to go well. This expectation creates what they call "a vibrational escrow" because what we ask the universe for does have a delay in time, hence the escrow. So every thought and feeling we have builds this escrow for us.

Nothing else in the world has resonated with me so profoundly and powerfully as the works of Esther and Jerry Hicks have. I received this collection a few weeks ago and I have listened to it in its entirety twice. I am ready to manifest one of their cruise workshops into my life for next year. I would like to expand on the first reviewer's comments. Abraham is loving and does have a whimsical sense of humor. Abraham takes you on a guided tour of how to raise your vibrations to the higher levels. This is also called "the emotional journey." The basic message in this collection is to always be reaching for better feeling thoughts with regards to the situations that are most important to you. Rather than focusing your attention on the lack of something, you always want to be moving toward what it is you want. Look at it this way, does feeling rotten get you anywhere? You might as well reach for thought that will help you feel better rather than dwell upon what you do not like or want. The side effect of being more positive is everything you ever dreamed or hoped for yourself from monetary abundance to relationships to healthy body weight and good health in general. Today, Friday the 13th of all days, I finally "get it." This could be the luckiest day of my life! I think I have finally moved into the vibrations of positive expectation and knowing. This means that my manifestations are not far off. It's kinda strange to feel and KNOW inside that everything is going to work out the way I want. My affirmations have changed for the positive. I have people at work calling me Suzie Cream Cheese and telling me to shut up because they believe I'm too positive! WOW! What a difference and what a blessing Abraham-Hicks has made in my life.
