Master Your Mind: Achieve Greatness By Powering Your Subconscious Mind

Synopsis

Isn't it amazing how some people just seem to coast through life and always seem to be able to achieve whatever they set out to do, no matter how hard it might seem to be for the rest of us? We all know at least one such person - someone who always ends up getting the top job, the life that they want, a loving family, and money to boot - someone who just has it all. I'd be willing to bet that you wish your life was just as simple and easy and that you were just as lucky. The great news is that you don't need to go looking for a lucky rabbit's foot or a four-leaved clover. You are already a very lucky person - we all are. The reality is that there really is nothing lucky about luck - lucky people have simply learned to harness the power of their subconscious minds - they believe that they are lucky and so they are. If something "lucky" does happen to them, they don't start looking for the first catch as many people would; they automatically know that this event was meant for them. In this audiobook, I will teach you how best to harness your subconscious mind, so that you can achieve anything that you want to achieve in life. As long as you are willing to give these exercises the attention that they deserve, you will find that you start gaining more and more control over your own reality. With these simple exercises, you will learn how to reprogram your subconscious mind and make it work toward achieving your ultimate the goals. You will become one of those "lucky" people who everyone is envious of. By simply learning how to use the power of your mind, you can access a wealth of stored knowledge and reserves of strength and determination that you could never have dreamed of. Your journey toward greatness starts today!

Mind is such a powerful thing. With this little thing we discover huge things but the most important is how to control our mind, how to guide it how to use it in a positive way and answer of all these question is in this book. This is few pages book but inside these few pages, we have treasure of knowledge, I haven't read something this amazing before. It also tells us how to fulfill your wills in life. How to move on a proper track. For happy life it is important to direct your brain in a proper direction.

I find as a teacher you apply your methods in a well placed manor. I agree that gut feeling are the guides that we can understand and follow. Focusing on what a person wants takes steps to exactly see ,understand, and execute the plan into action. This is a good guide for individuals that really want to change their life's for the better. Your father was incorrect in saying you are not a writer. Your book is well thought out, guides the reader the steps it takes to really promote change in their lives. GOOD READ!
