This series, though over 50 years old, is still right on the mark to building a foundation for a person's life. Simple and direct, the principles disclosed here are timeless. Each of the seventeen principles, upon reflection, can and will always be applicable to whatever the current times are. I've worn out the original set of cassettes and have ordered the cd's. One of these cd's playing in the bathroom while getting ready in the morning, is a great way to start the day. If one will listen to the individual

lessons, consider how they can apply to the listeners situation and try to implement each one, it will always have a positive effect on said individual. This will take time and commitment on that persons part but the reward, in achievement and self-confidence, will many times over repay the person for the time spent. The most difficult part of the program is deciding what ones chief major purpose in life is. Everything else is a growth and support system to implement the individual parts of the system in that person. Like anything in life, make a decision, plan your work, and work your plan.
(AND DON't QUIT)

This CD package includes the wisdom of Napoleon Hill as he says it with his enthusiasm and the right proportion of energy (not like the fake ones who imitate, recycle his thoughts)When I listened to his voice presenting his pure original Ideas that included the wisdom of the great people that he met in his life; plus his personality that search openly to reach what it seeks, regardless how much effort (if needed) or how much what he was looking for, seemed way bigger than the circumstances and the conditions that he started with. I observed this original, genuine mind speaking and teaching others to move and achieve what they want without the traditional handicaps of fear or worries, just with trust and courage instead. I believe that he will be the only man who initiated and presented this philosophy to the public and no matter how many books or courses are available nowadays, his work is the main source for all of those who are willing to recycle and rephrase his thoughts. And also for some one like myself who like to review and relive the moments that this man opened his mind and spoke sincerely to help others. I wish any of his books or Audio products will affect you positively as they influenced me.

I listened to this 3 times in a row. Absolutely wonderful. I learned more from him than other books I have read or listened to in the last 30 years. Wish I had come across it sooner.

Great advise - good program. This was created a long time ago, but the wisdom is sound and valuable. Listening to it just once is a waste of time. You need to listen to this over and over for it to "sink" into you mind. It reminds me of sitting on my grandpa's knee and listening to him tell me stories laden with advise. I think this program, and Napoleon Hill, provide such sound advise I have given away more than a dozen of these. Regards, Ken C

The amazing 17 principles that Napoleon Hill discusses in a beautiful language that is plain and easy to understand! The practice application is timeless that is why this classic has some things

that just don't come through in other later works by others! A must read and review for anyone truly serious about success at any level.
