Three Feet From Gold: Turn Your Obstacles Into Opportunities (Think And Grow Rich Series)

Synopsis

This remarkable business allegory tells a fascinating story in presenting the key principles of Napoleon Hill's revolutionary bestseller *Think and Grow Rich*. While you follow a struggling young entrepreneur through a life-changing series of encounters with some of today's foremost business leaders and inspirational figures, you'll find encouragement and motivation to believe in yourself, discover your own Personal Success Equation, and to never give up. You are just three feet from gold! A century ago Napoleon Hill began the research that ultimately resulted in his extraordinary bestseller *Think and Grow Rich*. Since its publication in 1937, with more than 100 million copies sold worldwide, the book has inspired generations of men and women to turn their dreams into reality with its wise and effective principles of self-motivation, leadership, service, and achievement culled from Hill's interviews with visionaries of his day. Now, a hundred years later, in *Three Feet from Gold*, a young entrepreneur whose life is falling apart finds himself retracing Hill's steps after a serendipitous encounter with a powerful businessman who sees the young man's potential and sets him on a challenging journey of personal, spiritual, and financial growth. Sharon L. Lechter • co-author of the #1 New York Times best-seller *Rich Dad Poor Dad* • and Greg S. Reid • a successful author, and in-demand motivational speaker • have given us more than the story of one man's dogged pursuit of success. They deliver an effective equation for accomplishing goals that calls for combining passion and talent, taking action with the right association, and above all else, having faith that you are on the right path.

Customer Reviews

Before writing this review, I did something I very rarely do; I went in and read a few of the other reviews. I purposely don't do that because I don't want the other reviews to influence my own words, but I had already made up my mind on what I wanted to say and something caught my eye in the reviews. So anyway, **THREE FEET FROM GOLD**, by Sharon Lechter and Greg Reid has some mixed reviews, to say the least. I'm going to give some credibility to the nay-sayers first. It is quite a stretch to believe that a total stranger, after a one-time meeting of only a few minutes, would put up thousands of dollars of their own money to send someone on such a pilgrimage as what is described here. I love parables, but even as parables go, that is a bit of a stretch. So we can certainly settle on this; the story is a little hoaky and more than a little unbelievable. Now, putting that aside, let's look at the content and relevance of this book. The book begins by taking it's namesake from the story Napoleon Hill tells of in "Think and Grow Rich" about R.U. Darby, the man who sold his gold mine to a junk dealer, only to learn later that he was only 3 feet from a major vein. The moral being, never give up, you may only be 3 feet from gold. From this lesson, the subject of the story, Greg, goes on a once in a million lifetimes journey to meet some of the most incredible mentors and successes of our time. The cast of characters in this portion of the "parable" are 100% real, their stories are real, and their message is real. If you destroy books the way I do, you'll end up with highlights, underlines, arrows and margin notes of virtually every page. The cast of mentors is broad and obviously a lot of work went into gathering this information.

The book reminded me in some ways of the One Minute Manager books. Rather than simply laying out the content in a text book format or a series of short anecdotes, it's written as a novel. What I love about this style of teaching is that it is both educational and entertaining. Once I started reading it, I couldn't put it down. Stories are generally easier for people to remember than mere facts. In this story, a man named Greg is going through personal adversity in his business and his personal life. Greg meets a super-successful businessman, Jonathon Buckland. During his personal journey, he meets with a series of real life successful men and women who share their secrets of success--particularly the value of persistence through adversity. While the story is fictional, most of the people he meets along the way are real people with real lessons that they have learned from their own experiences. This helps bring the ideas and lessons they share out of the "ivory tower" of theory and into the real world of everyday men and women. I liked the way the main character has

very real and contemporary problems, but learns how to overcome them with positive persistence and a commitment to self-improvement. As a big fan of Napoleon Hill, I loved the way Hill's teachings are woven into the story. While Greg receives a helping hand from his friends, it's clear that the reason they are helping him is because of the gradual improvement in his own attitude and a sincere desire to help improve the lives of other people. I believe that a great book is worth more than its weight in gold. That is because wisdom and relationships are more valuable than money. Wise thought is the "stuff" that is used to create wealth and success.
