Shift (Shade Series)

Synopsis

Her boyfriend, Logan, died, and his slides between ghost and shade have left her reeling. Aura knows he needs her now more than ever. She loves Logan, but she can't deny her connection with the totally supportive, totally gorgeous Zachary. And she's not sure that she wants to. Logan and Zachary will fight to be the one by her side, but Aura needs them both to uncover the mystery of her past • the mystery of the Shift. As Aura's search uncovers new truths, she must decide whom to trust with her secrets . . . and her heart.

Customer Reviews

Since Logan turned shade it was almost as if time stopped for Aura. Her life was on pause as she waited for him to come back to her. Calling out for him, hoping that somehow he could hear her call. That once again she would be enough to bring him back. Logan had been her entire life, her past and her future. And even though she might have been ready to let him go, to let him move on so that she could finally learn how to live her life without him, she never wanted his existence to be in the dark, as a shade. But when he finally answers her plea, his return brings with it a complication that she never would have thought possible. One that puts Aura in danger, raising questions that cannot safely be asked, and one that can change everything. And this time Logan's return will force Aura to choose between the boy she has always loved and one that could become her future. ***Shift is the electrifying, gripping and absolutely heartrending second book in the Shade series. The mystery, the action and the love story will keep readers hanging on to the author's every

word and unable to break away until the story's conclusion. Shift picks up where Shade left off. It is a few months later and Aura is still reeling from just how wrong things went for Logan. She has put her life, and Zachary, on hold, until she can find Logan and figure out how she can save him. But when he does return, she realizes that she will need Zachary's help to figure out just what Logan's return means and to finally get answers to the questions about what significance, if any, her and Zachary's births had on the Shift. With time running out, Aura must decide who to give her heart to or risk losing both.

Let me start by saying this book was awesome and I hope I do it justice. I loved Shade and the world Jeri created with the pre and post shifters so I couldn't wait to read Shift and I was not disappointed! Picking up Shift was like coming home. Shift picks up a couple of months after Shade ended and digs right back into the story. There are some amazing moments of steamy passion, mixed with action scenes that have you gripping the sides of your chair, as well as some utterly heartbreaking moments that will leave you with a pile of Kleenex next to you. The connection I felt with these characters was just so real I could feel Aura's anguish over having to choose between Logan and Zachary and I also felt their pain with decisions they had to make. I also enjoyed getting to know Dylan (Logan's little brother) more I loved the scenes with him and Aura his awkwardness made me laugh and his desire to protect Aura was heartwarming. I really loved seeing the growth in other characters as well like Mickey and Siobhan. Of course there were the baddies from the DMP who were up to no good like usual. The story unfolds so effortlessly between the love triangle which has become even more complicated with the addition of a few other people and the story about Aura and Zachary researching the shift and why it happened. There are some interesting discoveries and some disturbing clues that they find by the end of the book. You'll want to grab a copy of Shine and read it so you can find out what happens too bad we have to wait a year to read the conclusion which I know will be epic! Shift comes out May 3rd so remember to put it on your to buy list. Go to bookstores, order it from I don't care how you buy the book but BUY IT you will not be disappointed.

Sexy, mysterious, exciting and filled with surprises - Shift has it all. The story begins with Aura being a bit (okay, extremely) bummed out regarding what happened to Logan at the end of Shade. It isn't until a few chapters later where the Aura that I adore comes back - her sarcastic humor never ceased to amuse me. But, there are still of troubles, whether it's with boys or even with the DMP. Smith-Ready excels at creating genuine and honest chemistry (both friendship-wise and romantic)

between characters, but only one of the lovely guys who adores Aura truly fits with her the best, and I loved seeing this relationship grow. In between typical (and not so typical) teenage drama lies a mystery that will captivate readers entirely. The significance of Aura and Zachary's births, Aura's mother, The Shift, Stonehenge, one downright shocking secret, and so much more....the closer Aura came to discovering everything, the more hooked on the story I became. Shade delivered compelling and realistic characters, Shift came through with plenty of seductive secrets, and I have no doubt that Jeri Smith-Ready is going to give readers something spectacular with the next novel, Shine. **HIGHLIGHTS:** Many of the characters grew in this installment. And Smith-Ready made a kilt sexy...which I didn't think was possible. Smith-Ready ends the story nicely, but leaves quite a few tantalizing hooks to keep readers curious for the third novel.
