Grade Level: Preschool and up

Customer Reviews

This book is a standard touch and feel style book. Pros: bright photos of the animals and very cute. The cover is sturdy and holds up to drool and grabbing hands. Cons: some of the "feel" images aren't really up to quality. What kid wants to feel shiny paper? That's really not very sensory because its texture is the same as the page, it's not any smoother or rougher. I like the DK publishing style books better than this style.

Very nice book the pages are bright and most of the pictures have lots of soft fluffy fur we like the baby pig and his soft skin. love the book is soft not hard board book.

I bought this book (one of many) because my 16 month old daughter loves the "touch & feel" books. She loves to look at the animals and feel their soft fur or sticky toes. This book is very cute! Fast shipping and book was received in perfect condition. No tears, no writing, nothing. I would do

business with this seller again and I recommend doing business with this seller. These books are awesome!!! A+++++

Received this as a gift when my LO was 12 months and she has always showed some interest in the textures. As soon as she turned 2, she became more interested in the words, and this book has become a favorite! The Baby Touch and Feel Books are good for texture/sensory feel at a younger age but they are EXCELLENT for vocabulary and learning at a later age because they have very few words per page, which helps your child focus on learning one thing at a time and the bright colors and fun textures help the child's attention. If your infant/young toddler doesn't take to this book, hold onto it because it will be great for language skills.

My son loves these books, well he is 6 months old so he loves everything. I love these books because they're short and sweet and have fun textures and nice images for the kids to enjoy. Nice sensory book, we have several for our son.

just enough touch and feel pages, but my 10 month old is still getting used to this book... a good buy and worth the money... she does love her more familiar touch and feel books... im sure she will love this in time too

My 17mo old loves these books! They hold her interest and the pages are easy to turn for her little hands. I would buy again!

I thought the book was lovely and would be interesting to read. I gave it to my grandson who enjoyed "reading" it. It arrived promptly and was in good condition.
