Customer Reviews

This is a great book for children. Ours enjoyed it very much. It is also a super good way to help readers. I love to use these books especially with reluctant readers. The story was good and the sound effects were terrific. Most of my children wanted to read it repeatedly. That is always a nice thing. I like these read-along storybooks a lot.

My 3.5 year olds LOVE this book. They really enjoy the movie, but they love putting the CD on and taking turns showing each other the pictures and following along in this book. They almost have it memorized by now, and we've only had it for two weeks.

This is a great story. I loved hearing the read along CD - it brought the story to life. This book / story is a great tool to talk to children about emotions and their feelings. I personally thought the storyline was a bit advanced for my preschooler but he actually got into it and this is now one of his favorite stories. He has been able to identify his own strong emotions, which is the first step to get tantrums under control..

The students in my 2nd grade classroom LOVE this book and cd. It plays over and over whenever they get a chance to use the cd player. The story is great and the book/cd hold up really well to many little hands passing them around.

My autistic 7 year old son loves inside out and this book is great, he loves the read along cd! He was so excited to open this early for Christmas, can't wait to see his face when he opens all the talking plush characters too.

I got a ton of these Disney CD Read Along Books for my first grade listening center. My kids really love them since many of my students are already familiar with most of these stories. This seller was better than others.

I loved the movie and I love the book. The audio CD (with voices of the original characters) makes it easy for a young child to follow along. It also allows you to relive the joy (see what I did there?) of the movie. BUT if you have not yet seen the movie and plan to, don't get this book. It tells the whole story.

This book I love, my students love it as well, they were so amazed by the colourful pictures and the sound effects from this read-along book and CD, they were very happy and asked to see and listen again. Thanks again .
