Sacred Success: A Course In Financial Miracles

Synopsis

Sacred Success®: A Course in Financial Miracles shows women there is a better way to achieve wealth and power: on your own terms; as a woman. Barbara Stanny, the leading expert on women and money, has helped women take control of their finances for two decades; and she knows there is much more to success than how much you earn. In her work with powerful, successful women over the last 20 years, bestselling author and financial educator Stanny has found that most women's problems with money have little to do with money itself, but rather with their fear of, or ambivalence toward, power. Instead of pushing women to pursue financial success in the traditional fashion, Sacred Success seeks to redefine power from a feminine perspective. More than a financial guide, Sacred Success is a primer on power for women; a tutorial for taking charge of your life by taking charge of your finances, and not only growing your money but creating a deeper, richer, and more meaningful life. Best described as 'A Course in Miracles meets the Wall Street Journal,' Sacred Success gives you a proven process that uniquely blends the practical, psychological, and spiritual work of wealth. You can be financially successful without sacrificing your soul or compromising your values. You can create wealth and exercise power by staying true to your authentic self and personal mission. Start now.

Customer Reviews

This book is a game changer for all women! Barbara Stanny's genius gave me the tools to address my "lack mentality" through soul vs. ego thus leading me to clarify my self-worth giving me permission to "think big." I was able to successfully raise my rates, work less, invest more and have lots of time left over to feed my soul. Thank you Barbara Stanny for changing my life! Mary Deveneau Sacramento, CA

I bought three of her books including this one under the pretense that when her husband squandered her funds that she was in the position that many of us would be- flat broke, needing work, going back to the parents. But know atleast in this book she admits that she still had PLENTY of real estate income via inheritance which really makes me wonder about this whole series of books. I'm tired of trust funders preaching to people about how they can achieve high level income. One thing she doesn't mention is the TIME AND ENERGY it takes to dedicate yourself to greatness. Her inherited income not only paid off what she owed the government after getting the numbers way down but it also PAID HER BILLS. She had the luxury of taking crappy paying writing jobs to get herself started just like she had the luxury of working full time on this book instead of having a day job. I can't completely knock the book because it does have some gems of advice. However, I don't see how she can say she spent years teaching stability when she inherited stability! I love in Los angeles and I see plenty of trust funders and daddy's spoiled kids rolling around like they earned their success when Infact they got to bask in their inheritances and put up a facade. Some of them go on to be successful because everyone wants to be around successful people so it's a self propelling thing. Basically faking it til you make it. I notice that this woman and some other authors are cross promoting each other. Good for them. I would love to hear from someone getting RESULTS from under earning working class to becoming affluent, otherwise, I don't know. I feel like the story she tells of her victimizing herself to her husbands gambling habit were not as detrimental an event as she makes it seem in her interviews.

Written by Leisa Peterson (not Tim as this is our family account) - I couldn't wait to read this book after reading several of Barbara's past chronicles. This book definitely did not disappoint and I found it filled with helpful stories, quotes, exercises and insights about ways to live a more fulfilling and

satisfying life. I love Barbara's writing style as it keeps you interested from page one until the very end. Barbara isn't like many writers who just tell you how to live your life, she lives through her stories so you know that everything she is suggesting is tried and true advice from a seasoned and heart focused professional. I am recommending this book to every woman I know as it could be a catalyst style game changer for those who are ready for more GREATNESS in their lives.

I've read several of Barbara Stanny's books and was really looking forward to her latest one, "Sacred Success." I know I'm in the minority here, but overall, I was very disappointed. I'm glad that other readers found the book to be enlightening and helpful, but I quickly grew annoyed with all the New Age "wisdom." All this talk of the "Call to Greatness" and "Receptive Surrender" is just too "woo-woo" for my tastes. The second half of the book is a little more practical, with some actual steps you can take to build wealth. There are also a few simple exercises that I found useful and very thought-provoking. (e.g., Answer the following, one of the "Three Big Questions": "If nothing at all changed, what will my life look like in five years?") But all in all, I found this book to be a stretch. In my opinion, it would have worked better as a long magazine article. The author says she originally set out to write about women who make seven figures, but her editor turned the idea down. I don't know what the editor was thinking! A book about female millionaires "their mindsets and how they became successful" is one that I would definitely be interested in reading.

I enjoyed reading this book and was pleasantly surprised I actually learned something about finances. The author seamlessly combines teachings from A Course in Miracles with practical financial matters. She offers spiritual insights and great financial advice. Not New Age-y but more like a spiritual finance/business course.

I've attended several of the author's retreats and admit I'm quite a fan of her work! I'm thrilled that what she teaches via her retreats is now available to everyone in this groundbreaking book that is so much more than "just" about money, I learned about stepping into my authentic power to inspire others, that when I'm not being true to myself that I'm giving my power away and that Sacred Success is a transformational process of self-awareness that results in becoming who we really are! This book is full of nuggets of wisdom for personal growth, personal revelations and wisdom for avoiding those pitfalls that trip so many of women up. It's a game changer, life enhancer and guide to owning your awesomeness!
