## Customer Reviews

It's a Comprehensive Accounting review, however there are a lot of finance concepts, theories, and models intertwined all throughout the book. The book is smaller than expected with small print. It would have received 5 stars had the print not been so small

Terribly dry and very confusing. There have to be better accounting theory books out there.

arrived on time. Book was as exciting as expected for a textbook.

Awful textbook does not explain topics clearly

Great Seller, item as described
