# Amber Spyglass, The (Lib)(CD) (His Dark Materials)

## Synopsis

Will and Lyra, whose fates are bound together by powers beyond their own worlds, have been violently separated. But they must find each other, for ahead of them lies the greatest war that has ever been - and a journey to a dark place from which no one has ever returned... --This text refers to an out of print or unavailable edition of this title.

## Book Information

Age Range: 12 and up

Grade Level: 7 and up

## Customer Reviews

Philip Pullman's dark fantasy trilogy, His Dark Materials, ostensibly written for children, is actually literature of a much higher order. The title of the trilogy comes from a particularly powerful passage of Milton's Paradise Lost, the great religious epic poem whose central story is the thematic basis for this trilogy. Another important influence on these three novels is the Christian Parsifal or Sir Percival story, which dates back to the early middle-ages as part of both the King Arthur and the Holy Grail cycle of tales. From its very first page, Pullman's crisp, evocative writing creates a world not quite like ours but just similar enough to be uncomfortable and strangely familiar. As readers of the trilogy know, most of the events in these books do not occur on our world or even in our universe. Of course, because this is post Tolkien fantasy, Mr. Pullman has absorbed all of the usual fantasy tropes and has no desire to repeat them. So what he writes is new, deeper, with fully rounded characters that come alive on the page. His courageous young heroine, Lyra Belacqua with her

daemon familiar, Pantalaimon, always by her side, is one of the great creations in "children's literature". Lyra and Pan make an especially entertaining, often very amusing, pair. Her fearsome Uncle, Lord Asriel, is one of those rich, ambiguous creations that keep you guessing as to their motives, reminiscent of Professor Snape in J. K. Rowling's Potter novels. Pullman's writing is lean and well crafted and exciting to read. Once started, it is very difficult to set aside. This three volume boxed set contains the books in hardcover with their original dustcovers. Their artwork is lovely. It also contains a map: a necessity in today's complex world of fantasy.

This is by far the most engaging, intelligently-written works of children's literature I have ever read. (And for anyone getting hyped up about the religious factor, please read this before you judge!) The prose is sophisticated (I would say this is for kids with a very good vocabulary, maybe a 9+), and the characters are engaging. And talk about action packed! Pullman always keeps the reader guessing, and the action always is intriguing. The books do have violence in them (nothing too gory, but there are some battle scenes with blood, and some characters die), so keep that in mind if you want to read it to kids younger than 9. A lot of people say this book is anti-religious, anti-God, atheistic, etc. Most of these reviews have obviously not read the series. I actually found *The Golden Compass* in the book closet of the Catholic school where I taught English Lit! This book for certain is NOT anti-Christian. It does not preach evil values, & it does not encourage children to kill God. The book has a lot of religious aspects: souls, angels, and spirits. This book IS anti-religious corruption, and it IS against using religion to justify evil. One review mentioned the book encourages female circumcision: so wrong!...what the book said was that religions have used faith in God to cause harm to many, including the cutting of genitalia! And if Pullman is an atheist, so what? C.S. Lewis was a Christian. Does that mean Jews, Muslims and Buddhists can't enjoy the Narnia series, even though its messages aren't parallel to their own religious values? One thing that I do like is that Pullman creates very strong-minded children for his main characters, especially Lyra.
