## Customer Reviews

First of all, I am a big fan of Honoree Corder. I read The Successful Single Mom series - all of them - and they were instrumental to me at a time when I needed them most. Following a divorce, I

stumbled upon her books and soaked them up as quickly as I could. Her no nonsense way of telling things like they are is such a breath of fresh air, and I feel like she's in the room talking to me as I read the words on the pages. I follow Honoree on Facebook, and when I heard she was writing this book I asked to be one of the first readers. We are not 'best buddies' and we do not even live in the same city...so my review is not a reflection of my friend's book. It's genuine. First of all, let me start by saying I am in the process of trying to increase my success in several areas of my life...so that's why I jumped on the chance at reading this book. She opens by saying 'what do you really want and why haven't you already got it?' And as soon as I read that line, I stopped. I literally closed my laptop, and had to ask myself that question. What is stopping me from doing what I need to do? Why haven't I made a few of the tough decisions I need to make? I opened my laptop back up, and continued to read. I love that she talks about Hal Elrod's 'Miracle Morning.' I was NEVER a morning person, and once I picked up his book, my days have been transformed. Her Six Daily Habits are now written down on the wall in front of my computer desk at work...I love how simple they are. You don't have to spend hours and hours doing stupid stuff to be successful. Just remember these six things and make them work into whatever business you have...so easy. After reading the first chapter or two, her book reminded me of WHY I love my job...it's because I get to help people.
