I always have invested in penny stocks, but I now see all the mistakes I was making. I was making way harder than it needed to be. Buying wrong stocks. Buying at bad prices. This book on penny stocks is a great read that truly opened my eyes. If you don't have this one on your shelf, you are making a major mistake. I learned more in less time from Invest in Penny Stocks than any other stock market related book I've read. I learned so much about finding good penny stocks (and more importantly about avoiding all the duds and mistakes people make). Like I said, get this one, read it twice, and keep it handy.
