Customer Reviews

I asked my mom if I could buy it and it turned out to be a great book! I will try to remember to tell all my friends about this book!!!! IT IS AWESOME AND SWEET AT THE SAME TIME!!!! Written by my son, Matthew, age 7.

This is a great book for young children 6 - 8 years old who like the regular Geronimo Stilton series. I give it five stars because I like the adventure they go on. I don't want to spoil the book so I am not going to tell how it goes. Well, maybe just one part. Geronimo Stilton discovers from a news bird

that a volcano has erupted and there is a meteor shower. Everybody gets sick except him. He goes to a wise man's house and gets sent on a quest to get the cure. I hope you enjoy this book!

This book was amazing I loved the part where Geronimo Stiltonoot took the dangerous path to get to the cave of memories while he could have just traveled east and reached his destination quicker but that would have been bo_ ring. If you like comedy,adventure,or mystery this is definitely the book for you you'll love it.

I bought this book for a classroom library. It was eagerly anticipated and did not disappoint. I had a waiting list of readers before it hit the shelf. Geronimo, Thea,and now Cavemice, are always a hit.
