This planner is excellent. It is soft-covered, so the band does leave a mark or imprint on the back cover. It comes with alphabet and symbol stickers which will come in handy for marking important events or exams in my calendar. The stickers are located in the back folder/pocket, which is nice for a few notes and such that you don't want to have loose. The monthly calendar is pretty useful for keeping track of deadlines, holidays, and vacations; there is a nice "notes" section underneath each month. There are also a couple pages to keep track of your itinerary when traveling and a few "timetable" pages which can come in handy for class schedules. The most useful part is the weekly notebook: on the left page, there are sections for each day for you to mark important events, assignments, and notes; the right page is all ruled for additional notes and reminders. This layout is pretty flexible; I use the right page for checklists for things to buy and assignments. I like how the weekly notebook and calendars list what week of the year it is. The calendar is listed Monday through Sunday rather than Sunday through Saturday as I am accustomed to. This is not a big deal, though. I look forward to using this during the school year!

I've been buying these for the past few years. I love the layout and usual quality of the books. Last year's planner fell apart at the seams, and I was unable to connect with anyone to complain, but one bad book out of the many I've used didn't sour me on the brand. I opted for a smaller book this year after looking at the amount of writing I do in it. I figure I can cram everything into a smaller space with no regrets.

Nice size and I really like the weekly format with an open opposite page to make lists or notes. Soft cover makes it not as heavy but pages are thinner than usual Moleskine notebooks and my gel pens show through

I actually used to use the Extra Large Softcover Moleskine Planner but I found that this size was much more compact and it fit perfectly in my bag. It comes wrapped in shrink wrap inside the box, so you don't have to worry about the book getting damaged in the mail. 's pricing is a little better than what you'd get for this at a stationary store, and as an added benefit you get Prime Shipping (so cheaper than ordering from the Moleskine website). Will be coming back in 18 months once this one is used up to order a new one :)

I only use Moleskine notebooks and have been purchasing these for the last few years. Recently tried this size for the first time and I don't mind it, but for the amount of daily notes I take, I may need to switch back to the bigger one.

I really wish that the planner included both the entire summer as well as the calendar school year. I had to get two different moleskin planners to cover both my summer semester (that began in May), fall and spring. Overall, there is more than enough space to write down all I have to do. I would buy it again.

Simple, easy, and well-organized planner. There are some extra pages that suit the frequent traveler, and they're fun to look through, but I will not be using them. Other than those pages, there really aren't any unnecessary junk pages or weird columns in any of the calendars. The planner is very sleek and fits in many bags and purses. I will likely buy the planner again, once this one runs its course!

I bought this planner for my husband who was getting lost in the sauce between course

assignments, homework, scheduling commitments, and life. I love moleskine products and have been using them for years. This was a great, inexpensive product to help him get organized. One side of the notebook provides you with the days of the week along with ample space to write in meetings/homework/assignments/etc., while the other side gives you an entire page of "notebook paper" to write whatever you so choose. Highly recommend. Durable, functional, minimalist looking, and ultimately, a great way to help organize your day.
