It's a fact, not an opinion, that network marketing is the best opportunity for the masses. It's also a fact, not an opinion, that the majority of the wealthiest people in this country are network marketers. It's also a FACT that this is THEE best network marketing training material available in the world today. Therefore it would make sense for you to read 'The 45 Second Presentation' or at least listen to the audio. I purchased this audio for my prospects who are too lazy to read and it's

helped quite a bit.I listened to it myself and while the guy reading doesn't have the most outstanding personality in the world, he does a great job none the less and the information comes through. The bonus disc, vision and leadership, is like a live webinar / recorded phone call of Nancy Failla talking about 'The System' and why everyone should be in network marketing. A great listen but the audio quality isn't that great. Not an issue though as it's the content that drove us to get this! If you're serious about growing your MLM using the 45 Second Presentation teachings (which you should be if you're smart) then you need this audio book to hand out to people who don't like reading.

I'm not a new comer to network or relationship marketing and have a fairly successful business. The ideas set forth in this CD & book, as I know own both, have set our business upon a new course. One that's more in line with how I thought this great profession was always predicated: Relationship Building, sponsoring & teaching

Good set, but I would rather spend my money on Go Pro, which I did. Feels a bit dated and if your product line is more complex than a one time pruchase, this is not the set I would recommend. However, if you have a lot of sets for the car and looking for a little something different, this is a good one for a little something extra.

This is a very powerful network marketing tool. I like audio simply because I can listen to it almost anywhere. The content will change how people think about network marketing. It breaks things down so anyone can understand it.

For anyone looking to build their multi-level marketing business, this is a great book. It truly could change your life.

I like the idea behind the Napking Presentations in this book. Very easy to share and teach the idea. This is a must-read for anyone in Network Marketing.

Good listen, explains MLM every well. It gives you the do's and don't s and why MLM makes since the end

Love listening to the audio in the car. I will see how effective it is as I incorporate it into my business.
