# Build Social Confidence: Maximize Your Social Likability, Handle Tough Conversations Easily, Get Along With Everybody - Proven Hacks To Boost Your Charisma

## Synopsis

Would you like to captivate people's attention instantly? Do you long for being liked, trusted and respected? Do you want to rule any challenging conversation and deal with difficult social situation? How about having a captivating charisma that makes people want to befriend you? Build Social Confidence isn't a collection of "fake it till you make it" advice or a bunch of "just do it" good for nothing mojo. It is about building up your true, everlasting charismatic personality, and introducing it into your everyday life. Social confidence is the ultimate bridge that connects you with the rest of the people. Get strength of character, and faith in yourself. This book will give you how to along with the "why" with numerous real-life examples, research proven techniques and tips from the experience of a professional Communication and Social Development Coach. What will you get by reading Build Social Confidence? • Stop being a grey mouse, become the heart of the company. • How to connect and interact with any kind of people. • Get rid of self-deprecating self talks following four easy steps. • How can you make people feel important and happy. You'll also learn • The quick way to get out of your (un)sociable comfort zone. • How to transform your ego into bulletproof self-esteem. • Crush emotional spasms. Social confidence is not an accessory quality, but lifelong asset that will allow you to create doors where there was only wall before. • You will never feel awkward or uncomfortable among anybody. • You will be the leading character in your own and other's life. • People will respect you and open up to you easily, because you deserve it. • You will become a social butterfly that people like to be around. • You'll be able to establish good relationships instantly and deep friendships quickly simply because you are likable. Start building your social confidence TODAY! Scroll up and hit BUY NOW!

## **Customer Reviews**

This book was AWESOME!! Not your run of the mill self help books that focus on the same topics: repeat a person's name to remember it, keep eye-contact, cheesy suggestions for "making" people like you. This one is unique and actually USEFUL!! I read it all the way through, placing MANY bookmarks to refer back to on key points I found interesting. Build Social Charisma can help ANYONE with their social settings, approaching new people in ANY situation, and conversation starters that don't make you look like an idiot.

Build Social Charisma was very sobering and made me take a good look at myself and see what my faults are. Then the book told and showed me ways to be nicer to people, be more confident, and how to talk to people with being confident and how to know what to say. There are some really good pointers here. It gives you tips and knowledge on how to be more assertive and contribute to the conversation.

I always had a hard time knowing what to say and starting conversations what to say until I read this amazing book. There are several strategies and tips in this book which will provide you with ways to approach someone to start a conversation and ways to be confident in your communication skills. It is a very easy read and formatted well so that the topics are smooth and go right into the next subject. All in all, I would definitely recommend this book to anybody who is in need of communication skills and would like to further their knowledge on how to respond verbally to certain prompts.

This is the second book I read from this author and I have to confess that it was the best!! often

have problems when it comes to make friends. I am genuinely interested and curious but people label me as nosy. I didn't know what is the borderline between the two till I read this book. Zoe explains very well the small techniques that can help people identify the other's mood, personality and preferences. Recently I can detect those small signs that warn me when to open up and when to ask more discreetly. Thanks!

I thoroughly enjoyed reading this from start to finish. I love how McKey gives straight and simplistic suggestions, toward paradigm shifts. Sometimes less is more, and this book is proof. I give it 5 stars because the suggestions are the most realistic I've read with hopes of attaining social confidence. All in all money well spent!

This is a great book. I'm not a 'typical' self-help person, and never have been a promoter of any particular process or philosophy. Zoe's work is well grounded and the presentation is powerful. I found a significant amount to think about and practice. Since reading it, I've recommended it to several folks.

I love how the author gives vigorous examples and compare them so the reader can actually grasp the idea. Other self-help books I read were less easy to follow, I find this one the easiest to understand. Many other books do not give good examples like this one does. Build Social Charisma also made me understand better those people who are different than me, which helps the way I interact with them.

This is a good book. I was able to walk away from it with practical advice. I wish I was better at this topic, so I got this book and it helped. Always good to expand your knowledge.
