When Hitler Stole Pink Rabbit (Essential Modern Classics)

Synopsis

Partly autobiographical, this is first of the internationally acclaimed trilogy by Judith Kerr telling the unforgettable story of a Jewish family fleeing from Germany at the start of the Second World War. Suppose your country began to change. Suppose that without your noticing, it became dangerous for some people to live in Germany any longer. Suppose you found, to your complete surprise, that your own father was one of those people. That is what happened to Anna in 1933. She was nine years old when it began, too busy with her schoolwork and too bogging to take much notice of political posters, but out of them glared the face of Adolf Hitler, the man who would soon change the whole of Europe – starting with her own small life. Anna suddenly found things moving too fast for her to understand. One day, her father was unaccountably missing. Then she herself and her brother Max were being rushed by their mother, in alarming secrecy, away from everything they knew – home and schoolmates and well-loved toys – right out of Germany.

ISBN 0440490170 - I've always loved books about WWII, because it's a time in history that is so full

of stories of endurance and courage. When I picked this one up, I had my doubts about how well this era could be related in a kids' book - and I am so happy to say, it is excellent. The "secrets her parents are keeping" in an earlier review don't exist. They're Jews, they live in Germany and they flee - no secret. Anna and her family live in Germany as Hitler is coming into power, and her father is one of the lucky ones who knew this was a bad thing before it was too late. On the eve of the elections, her family flees to Zurich and begins a new life as refugees. For Anna and her brother Max, this is an adventure, even if they are sad to leave their home and friends. They believe they will be able to come home in six months, so they are not heartbroken over it. They begin school, make new friends and learn new things - not all of them good - while their parents struggle to make ends meet. Her father, a famous writer, can't get regular work for good money and her mother has to learn to do things for herself and her family that they once hired people do to for them. From Zurich to Paris and eventually to England, Anna's family loses everything they own but learn that all they really need is one another. There are some hilarious moments, such as when Anna's teacher tells the class that cavemen used safety pins, and some moments of triumph for everyone. Anna's and Max's success with French is a high point, as is their father's selling a screenplay. Without a doubt, the saddest moment isn't when Hitler stole pink rabbit, but when news of Onkel Julius' suicide reaches the family.
