## Customer Reviews

We love these books - both the "love to eat" and "love to sleep." Unlike a lot of other touch-and-feel books, these have large textured areas with cloth, etc. for the baby to grasp at. They're beautifully bound and the artwork is lovely. Highly recommend.

This and it's partner book are awesome. It is perfect and appreciated by my toddler, but it is wonderful and very appropriate for my almost nine month old as well. I Love to Eat and I Love to Sleep are great reads for anytime as well as the "appropriate" time. With each pages filled with one more item of wonder and discovery. We've had a few Touch and Feel Books through out the last few years, but these two appear to be very durable and I'm excited to be able to share them with my daughters.\*Thanks to HMH for providing a copy for review.\*

These books are fantastic for little kids! I have two and plan on getting more. The words are in French, Spanish and English. Each page has something tactile to feel.

Really fun book for my baby who loves tactile/sensory books. I also love this because I can read it to my son in Spanish and my husband can read it to him in French.

Cute book and well put together. It is sturdy so that my daughter can comfortably explore the book without me having to worry about her destroying it.

This adorable, multi-lingual with different textures. This book involves kids in eating and identifying objects and foods surrounding eating time.

Nice book but some of the words are in a Spanish other than what I speak. It's cute.
