## Customer Reviews

This book was a good read. This was my first time reading this author. I will continue to support this author in the future. It shows you how people can change with God's help. Keep up the good work.

First the story is inspiring and interesting. I think the editing need to be done to book again. There were a lot of mistakes. I like the plot of the story but the editing errors takes away from the story. I think if you would revise it would be banger it has a lot of mistakes or may be the formatting I don't know but I love the overall story but the editing errors is taking away from your story. It has a great message but I still have problem .Please edit this book!

Honey Bee wrote a fantastic book. I loved every page. Even though, at times I felt that Mike needed to give Jason a break. Because he was trying so hard to be a better man. Everyone should read this book, it really brings home the value of family and faith in God.

The book had an awesome message; forgiveness and God's grace. I enjoyed the story do a great plot, but there was a ton of errors in the book, which took away from grasping the meaning of sentences. Mike was an awesome man, with a big heart. Jason had a rough life and did not seek out help until it was almost too late.

The story held my attention. I read it in one day and a half. Again I say that Christian Fiction books has a message from God and a lesson that we should lean on Him. Love it. ^, ' '
