Eva Rosenberg set the standard for books about small business taxes with her *Small Business Taxes Made Easy*, Second Edition. She has done the same for books on personal taxes with this work. I've read a stack of books about taxes, and you won't find a better one than this. What sets this book apart is Eva's rare combination of technical expertise and a delightful, even entertaining, writing style. Yes, this is a tax book. And yes, I just said it is delightful and entertaining. How could that be? Well, because it's written by the TaxMama. Nobody writes about taxes the way she does. She's able to take any complex tax topic, explain it in a way that you will actually understand, and do so in a manner that will put a smile on your face. Now, that's not to say that every page is a barrel of laughs. This book is jam-packed with literally hundreds of useful tips (270

to be exact) about our complicated personal income tax system. If you apply yourself and read this book diligently and carefully, youâ™ll learn how to take advantage of dozens of tax deductions and credits. And youâ™ll learn about these tax breaks from one of Americaâ™s premiere tax gurus. I give this book my highest recommendation. Get this book and youâ™ll get your money back many times over.

I learned a lot from this book. Have you ever heard of the MyRA? This is not just a list of what you can deduct. Eva goes into detail on how you can maximize your deduction and alternatives if you don't meet a criteria for a certain deduction. The resource list in the back is worth the cost of the book ten times over.

I wrote this with the concept that people are smart enough to work with reliable data. Everything is backed up with links to citations. So, ideally, read the printed version of the book and mark it up. Then use the ebook to access the links easily. (Or type them in from the printed book's pages) So this is a great resource for tax professionals, as well as taxpayers. But there is more! There are tips on how to make a living. How to generate tax-free money. How to handle Uber, Lyft, eBay, AirBnB income and lots more. Incidentally, the Index didn't make it into the book. Those who bought the book know where to find the additional info and updates. The information is in the book. And thank you for buying it!

Eva Rosenberg is informative, brilliant and makes it simple for people to deduct everything. By the time you get through this book you will easily make all your money back that you spent on it and then some. Easy to read, this book is a MUST READ for anyone wanting to make sure they write off everything they can. Eva is VERY seasoned and teaches other professionals, so she is THE ONE to go to for this kind of advice. PLUS, her style is so much fun. MUST READ!!!

Eva Rosenberg has taken a topic that is core to tax law and of interest to all taxpayers and presented in an understandable and in plain English and put deductions at the fingertips of the taxpayer/reader and if used in conjunction with a professional (EA or CPA or tax attorney) and legally minimize taxes rather than being creative and gamble with the IRS's scrutiny. The book is instructive and understandable and will help readers to understand and implement. I have great admiration for someone who can master an area of subject matter such as tax laws and distill it to understandable form and present it to readers a fine book. Eva has done just that! This book has

wealth of information in user friendly language that tells you succinctly in concise manner the how to deduct and write-off expenses and use legal loopholes and credits etc to minimize taxes. It is must read for all interested in legally lowering taxes and good desk reference for tax professionals.

Lots of good tax savings ideas as well as deductions and credits to reduce your income tax as much as possible. As a CPA I need to know this stuff and Eva gave me some info that will help in the future. A really good resource!

ONE OF THE GREATEST I'VE SEEN (I AM AN ENROLLED AGENT) - MS. ROSENBERG HAS PRESENTED A HUGE LIST OF POSSIBILITIES. THERE'S SOMETHING FOR EVERYONE IN THIS BOOK. I'VE ORDERED IN BULK TO GIVE TO MY CLIENTS WHO ACTUALLY TAKE AN INTEREST IN THEIR INCOME TAX PREPARATION. THEIR RESPONSE HAS BEEN POSITIVE, ESPECIALLY IN THE 'NOVEMBER' REVIEW TIME. GOOD VALUE AND HELPFUL IN MANY RESPECTS.

I really enjoyed this book. The writing style makes understanding these tax topics very easy. I would recommend this book to anyone that is looking to save money on their personal taxes. The Kindle version was neat because there are many links to websites for use as reference and resource. Therefore reading from a smart device allows you to be more interactive with the book and deepen your experience.
