Animal Communication Mastery Series

Synopsis

Break through the layers of cultural conditioning that separate you from total connection and communication with animals. See, hear, smell, touch, taste, feel, and experience the world through other beings perspectives. Understand animals to depths unimagined. Learn how to help resolve animal behavior and emotional issues, illness, and pain and deepen mutual understanding and cooperation. This series of six compact disc recordings on four major topics covers the theory and practice of directly communicating mind-to-mind and heart-to-heart with other species. Filled with timeless and many-layered wisdom, you can listen to these recordings again and again for growth in understanding and skill. Your animal friends may want to listen along with you. The wealth of knowledge and insight on these recordings has helped many animal communicators begin their careers and improve their professional practice.

1. How to Communicate with Animals Practice simple, basic steps extended from the techniques in the classic book, *Animal Talk*. (Not as comprehensive as the exercises and pointers in the *How to Communicate with Animals The Basic Course CD set*) (1 hour)
2. Animal Intelligence and Awareness How intelligent are animals? Is *Homo sapiens* the only species that is self-aware? Find out about animals' comprehension, reasoning, and awareness based on actual communication and observable responses from animals. (1 hour)
3. Understanding Animals' Viewpoints Get the "inside story" on how animals view humans and the world around them. Numerous experiences reveal animals' purposes, sense of humor, deep feelings, and spiritual insights. Release blocks to your full connection with other species. (2 hours)
4. Healing and Counseling with Animals Learn straightforward methods to help animals through emotional trauma, fear, injury, illness, and dying (not a substitute for veterinary assistance but ways to promote healing). Bodywork and counseling in-person and at a distance. Contacting animals who have died. Entities. Insight into Penelope s seasoned approach to counseling with animals. (2 hours)

Customer Reviews

Communicating with animals telepathically throughout her life, Penelope Smith discovered in 1971 that animals could be relieved of emotional traumas and other problems through the same counseling techniques that helped humans. The training and experience that have contributed to her success are her educational background, with bachelor's and master's degrees in the social sciences; years of training and experience in human counseling, nutrition, and holistic body energy balancing methods; research into animal nutrition, anatomy, behavior, and care; plus the firsthand education from the thousands of animals she has contacted. Smith's visionary work as the leading pioneer in the field whose name she originated, interspecies telepathic communication, has been featured in newspaper and magazine articles, numerous books, and on radio and television. She has developed tried-and-true telepathic communication techniques, complementing ancient wisdom and modern scientific knowledge. Her methods foster people's ability to understand and communicate with animals on physical, mental, emotional, and spiritual levels. A legendary teacher for over three decades, she has helped launch the careers of numerous professional animal communicators. Smith feels that the sacred connection we make through telepathic communication with other species is essential for human wholeness. She believes that everyone is born with the power to communicate with other species, and that, although it is long lost for most people, it can be regained for the benefit of all beings on Earth. Penelope Smith is the author of the popular, classic books on the subject, *Animal Talk* (available in many languages), *When Animals Speak*, and *Animals in Spirit*. She is the editor of *Species Link* magazine, founded in 1990. Her audio recordings include the *Animal Communication Mastery Series*, *Animal Healing Power*, *Animal Spirit Call*, and the *How to Communicate with Animals The Basic Course*.
