What You'll Learn

In the first 10 lessons, you'll cover the basics: saying hello, asking for or giving information, scheduling a meal or a meeting, asking for or giving basic directions, and much more. You'll be able to handle minimum courtesy requirements, understand much of what you hear, and be understood at a beginning level, but with near-native pronunciation skills. In the next 10 lessons, you'll build on what you've learned. Expand your menu, increase your scheduling abilities from general to specific, start to deal with currency and exchanging money, refine your conversations and add over a hundred new vocabulary items. You'll understand more of what you hear, and be able to participate with speech that is smoother and more confident. In the final 10 lessons, you'll be speaking and understanding at an intermediate level. In this phase, more directions are given in the target language, which moves your learning to a whole new plane. Lessons include shopping, visiting friends, going to a restaurant, plans for the evening, car trips, and talking about family. You'll be able to speak comfortably about things that happened in the past and make plans for

the future. Reading Lessons are included at the end of Lesson 30 to provide you with an introduction to reading Spanish. These lessons, which total about one hour, are designed to teach you to sound out words with correct pronunciation and accent. The Pimsleur Method We make no secret of what makes this powerful method work so well. Paul Pimsleur spent his career researching and perfecting the precise elements anyone can use to learn a language quickly and easily. Here are a few of his secrets:

- The Principle of Anticipation In the nanosecond between a cue and your response, your brain has to work to come up with the right word. Having to do this boosts retention, and cements the word in your mind.
- Core Vocabulary Words, phrases, and sentences are selected for their usefulness in everyday conversation. We don't overwhelm you with too much, but steadily increase your ability with every lesson.
- Graduated Interval Recall Reminders of new words and structures come up at the exact interval for maximum retention and storage into your long-term memory.
- Organic Learning You work on multiple aspects of the language simultaneously. We integrate grammar, vocabulary, rhythm, melody, and intonation into every lesson, which allows you to experience the language as a living, expressive form of human culture.
- Learning in Context Research has shown that learning new words in context dramatically accelerates your ability to remember. Every scene in every Pimsleur lesson is set inside a conversation between two people. There are no drills, and no memorization necessary for success.
- Active Participation The Pimsleur Method + active learner participation = success. This method works with every language and every learner who follows it. You gain the power to recall and use what you know, and to add new words easily, exactly as you do in English.

The Spanish Language Spanish is the official language of 19 Latin American nations, as well as Spain, the Dominican Republic, and Cuba. Further, it's one of the six official languages recognized by the United Nations. Pimsleur's Spanish programs teach an educated Latin American Spanish, featuring speakers from Colombia and Mexico. Students can expect to understand the lessons clearly and to be understood by Spanish speakers everywhere. Tech Talk - CDs are formatted for playing in all CD players, including car players, and users can copy files for use in iTunes or Windows Media Player.

Customer Reviews

There is little doubt that The Pimsleur CDs for Spanish I will get you off the ground and learning Spanish painlessly (if not exactly rapidly). If the thought of learning Spanish while being stuck in rush hour traffic, or driving across country, is appealing to you, then Pimsleur is the good stuff. Having said that, I think it pays to be aware of a few things before making the Big Purchase. Because the price tag for these CDs is high, you might find it helpful, as I did, to try Pimsleur's "Quick and Simple" set of CDs for Spanish first. Those CDs duplicate (with minor differences) the first 8 lessons of the Spanish I collection. So if you wish to be cautious, that is probably the best way to get started with Pimsleur products, rather than buying the more expensive, more comprehensive products right away. You'll get a sense of whether this is the route you want to go if you want to learn more Spanish. Whether you start with the Spanish I package, or the Quick and Easy CDs, you will be exposed to the heart of what makes the Pimsleur method unique and painless. The approach is based on (1) The Principle of Anticipation (a mastery technique that is different than rote recall), (2) Graduated Interval Recall (an approach that provides new stuff to memorize at optimal intervals), (3) Core Vocabulary (an efficient, optimal selection of a small number of key words that you need to know, as opposed to an extensive vocabulary), (4) and "Organic Learning" (learn speech, eg sound, rhythm, intonations, as opposed to a bunch of textbook grammatical rules). I should add that there's something subtly humorous about the content of the CDs, so if you have a sarcastic or wicked sense of humor, you won't be totally bored.

This is James from James Spanish (the learning Spanish blog). Pimsleur courses have been trusted by language students for decades, and are known to be one of the most complete and effective courses available for learning a second language. Taught entirely via audio, there are no textbooks, no work sheet, no written lessons at all. This makes it not only ideal for busy students who want to learn while they are driving, exercising or working but also for students who have a natural dislike

for reading and writing. The aim of the course is to get students speaking Spanish comfortably and confidently, without worrying about spelling or penmanship. Here are the pluses and minuses of Pimsleur Spanish.

Plus #1: Student-Friendly Method of Teaching Pimsleur Spanish does not rely on repetitive drills or lists of words that have to be remembered by rote. Instead the vocabulary, grammar and sentence structure are taught naturally, as a child would learn from listening to people talk, and repeating the words and phrases back. Each lesson is an easily digestible thirty minutes, and never overloads you with too much information. The course is designed for one lesson to be studied each day, giving you a steady but manageable pace. Level 1 is an excellent introduction for beginners, and will give a solid foundation of pronunciation, essential grammar and a basic vocabulary without overwhelming.

Plus #2: Logical Method of Teaching The lessons follow a logical pattern, allowing you to build on the knowledge from each previous lessons as you progress. Since each lesson is short, the course is great for those who can't devote a large amount of time to studying a new language, but who are serious about learning Spanish.

I have completed all of the three main levels of Pimsleur Spanish as well as Pimsleur Spanish plus. I have been studying Spanish on my own since early 2002. I would consider myself somewhat proficient but far from fluent. I am going to attempt to compare Pimsleur Spanish with some of the other courses that I have used and that are available here on . Compared to Rosetta stone, I would consider Pimsleur a lot more fun. Rosetta Stone was a rather tedious course. And the more fun a course is, the more that you will study with the course. The advantage that Rosetta Stone Spanish has over Pimsleur is that you will learn more vocabulary. Also if you are a visual learner you will make progress quicker with Rosetta Stone because Pimsleur Spanish is all audio. Pimsleur Spanish is also a lot more "convenient" than Rosetta Stone because Pimsleur Spanish can be used in your car or even your ipod. However, Rosetta Stone Spanish requires you to sit in front of a computer. In any case, Rosetta Stone makes an excellent compliment to Pimsleur Spanish or Learning Spanish Like Crazy. Compared to Learning Spanish Like Crazy, I would consider Pimsleur easier to master. I was able to complete the Pimsleur materials by going through them just once or twice. On the other hand, I had to go through the Learning Spanish Like Crazy materials as many as five times before I felt comfortable enough with the material to move on to the next lesson. Arguably, that's because LSLC covers more vocabulary and grammar than Pimsleur Spanish. Clearly, one advantage that Learning Spanish Like crazy has over Pimsleur Spanish is that it offers much more vocabulary. The vocabulary in Pimsleur was also a bit archaic and just too formal.
