Indestructibles: Baby Faces

Synopsis

Indestructibles are the books built for the way babies read. They are 100 percent baby-proof, chew-proof, rip-proof, and drool-proof. Printed on a unique nontoxic, paperlike material that holds up to anything babies can throw at it—gumming, spilling, dragging across the floor—Indestructibles are the little books that could. They're indestructible. And if they get dirty, just throw them in the washing machine or dishwasher. Baby Faces features baby's favorite thing: pictures of other babies. It's a book for parents and children to share together the many moods of a baby.

Customer Reviews

At about 5-6 months old my baby developed an insatiable taste for paper... she loved to crumple it, crunch it, wad it up, and put it in her mouth. After a couple of Sundays with corners of church bulletins chewed off and wads of soggy paper pulled from my baby's mouth in my purse, I knew we had a problem. The "indestructibles" books seemed like the perfect solution. At first I thought it was too good to be true, but I bought one to try it out anyway. Sure enough, my baby product tested it like a star. She tried to rip, she tried to chew, she tried to moisten the pages in order to rip and chew by sucking/gnawing on the book for extended periods... all to no avail! Even after being jammed in the diaper bag and crumpled by other toys, these books remarkably retain/rebend to their original shape. And to baby, they look and feel and SOUND like paper! Overall, GREAT quality product, beyond DURABLE, and great pictures to boot! (Though, for our purposes, this part was truly

optional) Some reviewers have complained about the lack of words. I was a bit disappointed by that at first too when I first flipped through the books in a store, but then I realized, "Do I really need a book to say 'Deer' for me to point it out and tell my baby, 'That is a deer!'" Likewise, with some of the Nursery Rhyme varieties of these books, I KNOW the Nursery Rhyme, and my grabby chewy baby rarely has patience to sit and listen to a story in sequential order anyway... and when she does, these probably aren't the books we're reading! (Again, I bought them for the indestructible quality) That said, I do like the themes, the rhymes, and the multi-culturalness of many of the books in this series.
