My sister recently started her own non-profit organization and appointed me as one of the coordinators. I admittedly don't know too much about running a charity, but would like to actively contribute, so I started downloading books that might orient me on what to expect and dole out ideas on how we might grow out our organization. This was basically an operations manual, and I did take away a lot of useful information. I'm definitely keeping this handy at all time in case I will need directions.

I still have no present plans in establishing a nonprofit organization but I am a little curious on how it is made to be. Reading the book helps me understand the step-by-step process of how you are going to establish a charitable institution from start to finish until it becomes fully developed and able to help the community. It takes a lot of work but it is indeed worth it! This book made me consider to start a charitable institution someday!

This non-profit book is very helpful, there are tips how to build a community if you want to start a charity in your own way read this book and will add your knowledge to be successful on-profit organization. I am a little curious with non-profit organization as I was wondering how it really works and what are the benefit you could get from it. As I was reading I learned a lot about tax exemption the protection it has from personal liabilities and the benefit it gives to their employees. Though there are challenges but the I guess its quite fulfilling once you started it as you have to choose social issues that your organization has to focus on. this book has information's about how to structure your non-profit organization. This is a good book to read if you are planning or even just learning what non-profit organization is.

Money is a very important or topic for non profits because it is the way of organization is able to operate. An appropriate amount of funds should be invested in the employees that serve the company and fund raising to create the revenue. i really like this book. i am learning while i am reading. i would like to share this book to everyone.

This book is a good guide to startup a non-profit charity by an individual or a group of people that aims to help their fellow-men. We all know that having a non-profit organization is a noble act, and doing it right the first step would bring it to a more effective and fruitful act. I will personally keep this as my reference. I find this one to quite informative. Nice one!

Non-profit organization is one way of showing to other that you care for them by having a charity but sometimes if you just alone supporting other people it might now grow well nor improve but having an organization with the same ideals as yours is totally great because you can create big improvement to the community!
