Teach Your Baby Italian [With Teaching Guide]

Synopsis

The Teach Your Baby series of audio language CDs is specifically developed for babies age three and younger. Stimulate your baby's neural pathways by playing the CD with your baby and saying the words out loud. You will also help the baby attach meaning to the words by following the teaching tips provided. Each of these words and phrases was carefully selected to have meaning to a baby or toddler. For instance, you will not find days of the week or months of the year since they are abstract concepts a young child cannot grasp.

Customer Reviews

I purchased this CD used on [Amazon.com](#) and even though the case was somewhat beaten up, the CD itself was in good condition and played beautifully. It was exactly what I was looking for with recitation in both Italian and English. Since this was intended for my baby I was pleasantly surprised and appreciated the clear but gentle tones of the two speakers. The case included a small pamphlet that had in writing the words and phrases being spoken on the CD. The phrases were common things spoken to a baby such as, "Mommy loves you, give me a kiss, are you hungry, what's the matter, mommy is right here, etc." Over all this is an excellent product!

great educational material

I bought this and sent it back that day, it wouldn't work on my computer or my car or I tried my home Cd player and nothing. They sent me a new one and guess what...still doesn't work!!!! A waste!!

The teaching guide was missing so we listen to but can't follow along to be sure our pronunciation is correct. I tried looking for one online but the company seems to have dissolved
